

Count, say, connect

Starting point: ages 6 to 8 | Numbers 1 to 10

1. Count the dots. Write the number word.

Word bank: two / four / five / seven / nine

• • • • • • •

• • • • •

• • • • • • • • •

2. Fill the gaps

one, two, _____, four, _____

six, _____, eight, _____, ten

3. Count something real

Choose up to ten pencils, blocks or books. Count them aloud. Ask: "How many?"

For the grown-up

Answers, adaptations and a small next step

Keep it relaxed

Choose one activity. You can read the instructions aloud, offer two choices or let your child point before speaking. Age suggestions are not an assessment.

Answers / possible responses

1. From top to bottom: four, two, seven, five, nine.
2. three, five; seven, nine.
3. Answers depend on the objects chosen.

Make it easier or stretch it

Use fewer objects first. If counting is easy, hide one object and ask your child how many are left, without making speed the goal.

Pour les parents

Choisissez une seule activité au départ. Lisez les consignes si besoin et laissez votre enfant montrer avant de parler. Les âges sont des repères, pas des niveaux à atteindre.

These are home-practice ideas, not a fixed lesson programme. Need help choosing a starting point? Meet Aya in a free 30-minute online introduction.
